

CSC-151 Spring 2026

Friday February 13

Today's Agenda

1. Announcements
2. Reading Review
3. Lab
4. Wrap-up

Announcements

Coding Challenges

Coding Challenge 3 due Sunday

- Any questions?

DON'T FORGET:

- Review citation policies & add acknowledgements
- Make sure your code runs in scamper
- Go through the checklist at the bottom of the assignment page
- You must turn it in in order to resubmit it in the future

Coding Challenge 1 revision

- Soft deadline next Friday

Quizzes

Quiz 2 is graded in gradescope

Quiz 3 next week:

- Lists (use map, filter, reduce)
- Decomposition

Survey in Gradescope:

- Which problem do you want to attempt for a redo on Quiz 3?
- Pick one
- I will include problems for all selected topics
- You can attempt more if they appear on the quiz

Mentor Session on Sunday

Reading Review

01

Write documentation for the following procedure.

02

Make a list of the tests you would create for this procedure. You do not need to use correct syntax, just make it clear which inputs you would use.

```
(define capital-letter?  
  (lambda (str)  
    (char<=? #\A (string-ref str 0) #\Z)))
```

Lab Notes

There is code on the lab today that you will not understand. That's OK!

We're practicing writing tests / documentation for procedures, even if we don't fully understand how the procedures work.

Upcoming & Reminders

- Coding Challenge 3 due Sunday
- Fill out the survey for Quiz 3
- Mentor session on Sunday
