

CSC-151 Spring 2026

Friday March 27

Today's Agenda

1. Announcements
2. Demo
3. Lab
4. Wrap-up

Announcements

Coding Challenges

Coding Challenge 6 due Sunday
questions?

CC4 Redo deadline today

Quizzes

Quiz 6 is graded

Quiz 7 next week

- Numeric Recursion (past two days)
- Higher order procedures (today)

Demo

Check 3 from the reading: can we write a procedure for map by using fold?

Lab Notes

1. When you write tests for something like `list-map`, use `map` to compare to the right answer

```
(test-case "numbers, square, simple list"  
  equal? (map square (list 1 2 3))  
  (lambda () (list-map square (list 1 2 3))))
```

2. Remember: The labs tend to have quite a bit of text written to help lead you to both the answer and better understanding.

Upcoming & Reminders

- Finish Coding Challenge 6
- Have a great weekend!
