

161-01

Arrays

September 13, 2024

Agenda

0. Quiz 2 feedback
1. Token Events?
2. Homework 2 questions?
3. Discussion
4. Lab

Quiz 2

```
TEST = -1; // TEST has the value of "TRUE"  
        // 0 stands in for false, while any  
        // non-zero number stands in for true
```

Token Events?

Do you have any
questions about
Homework 2?

Discussion

Arrays

1. If you have an array of length 5, what are the smallest and largest valid indices to access in that array?
2. What is "variable" about a variable-length array?
3. What are the values of the following arrays?

```
int a[10] = {0};  
int b[10] = {1};
```

Do you have any
other questions
about the reading?

Lab

Wrap up

For next time:

- Homework 2 is due Monday evening
- Lab Report 2 is due Monday morning
- Read chapter 9 of textbook
