Announcements

Token Events?

Homework 4 due
on Monday.
(Time for questions
in a bit)

No lab report
this week

Exam 1 Debrief

The screenshot shows a web browser window with the following details:

- Browser tabs: CSC 161 - Frequently Asked Questions
- Address bar: eikmeier.sites.grinnell.edu/csc-161-fall-2024/reference/course/tokens_faq.html
- Browser mode: Incognito
- Page title: CSC 161
- Navigation menu: Home, Schedule, Lab Reports, Homework, Syllabus, Reference
- Section title: Frequently Asked Questions (FAQ) about Tokens

Q: Where/how do I resubmit a homework assignment?

A: Submit it on Gradescope, under the assignment named *Homework X Resubmission*

Q: Where/how do I resubmit an exam problem?

A: Submit it on Gradescope, under the assignment named *Exam X Revision*. This will ask you to reflect on the exam problem with the following information:

- What went wrong in your original attempt? Did you misunderstand the question? Did you have a gap in your understanding of a particular concept?
- Please describe the attempt you took at the reviPlease describe the attempt you took at your resubmission. Did you seek help from anyone? Did you review any course materials? Something else?
- Upload a copy (scanned or photo) of your original attempt with the score and feedback.
- Upload your new attempt in any format you'd like.
- Include an academic honesty statement with a list of resources you used (besides our course materials) and people you talked to

Q: How can I earn a token?

A: Attend an approved event. Upcoming events will be announced at the beginning of each class period. Then email the instructor (see next question).

Q: I attended an approved event. How do I get my token?

A: Send your instructor an email with the title [161 Token] and containing the following information:

Any questions
about Homework 4?

Lab

We're not going to review the reading today – refer to the reading to get help on your lab.

Choose your own partner(s) today.
2 or 3 people per group.

Wrap up

For next time:

- On Monday we are going to learn about pointers!
- Read chapter 11 from your textbook.
- Work on Homework 4
