except for a writing utensil.

# Announcements

Your lab  
report this  
week is due  
before class  
on Friday

# Discussion

## Makefiles

Consider this Makefile excerpt:

```
farm: farm.c chicken.h chicken.c util.h util.c  
    clang -o farm farm.c chicken.c util.c
```

1. Why do we use make and Makefiles?
2. Which part of the excerpt above is the target? What does it mean?
3. Which part of the excerpt above is the recipe? What does it mean?
4. What are the prerequisites in the excerpt above? What do they mean?
